**THE ANNUAL MINIMUM CHARGE  
IS 200 € EXCLUDING VAT**

The amount of the eco-contribution is unique for each code. It increases (penalty) or decreases (bonus) according to 6 modulation criteria. If it is not possible to justify the modulation criteria or if there is any doubt, the least favourable price must be applied.

## ECO-CONTRIBUTION MODULATION CRITERIA

The eco fee modulation criteria, supporting documents and control procedures are detailed in the document "**2025 Eco-modulation Household EEE technical note**" available in the "Documents" section of your personal account on **Ecologic Producer Extranet**.

### 4 criteria in the price list table:

- **Non-separable battery** (penalty) or **separable battery** (bonus)
- **Presence of HFC gases** (penalty)
- **BFR in plastic** (penalty)
- **Single use** (penalty)

The eco-contribution amounts vary according to these 4 modulation criteria and are indicated in the price list table on each combination line.

### 2 other applicable criteria: Recycled Plastics Material (RPM) and Repairability Index

The equipment concerned is the subject of a pre-declaration including equipment references. If the pre-declaration supporting documents are in order, these references should be entered on the marketing declaration before the bonus is paid.

# NOTICE

## Recycled Plastics Material (RPM)

The criterion of incorporating Recycled Plastics Materials (RPM) applies to all Household Electrical and Electronic Equipment (EEE).

For RPM from post-consumer waste from EPR channels (open circuit), excluding food-grade resins, the calculation base is established on the basis of 450 € (excl. VAT) per ton, to be reduced to the mass of RPM in the equipment.

For RPM from post-consumer WEEE (closed circuit), the calculation base is established on the basis of 540 € (excl. VAT) per ton, to be reduced to the mass of PRM in the equipment.

## Repairability index

The equipment concerned is indicated in the price list tables by the icon :

If the reparability index is greater than or equal to the threshold fixed, the bonus is 8.33 € excluding VAT or 16.67 € excluding VAT, depending on the equipment.

For further details, please refer to the "**Dedicated note**" document available in your personal account on **Ecologic Producer Extranet**.
